EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The applicant's invention of claim 1 is geared toward a method for the automated analysis of a mobile radiotelephone system. The examiner found the applicant's arguments filed 12/3/2004 persuasive in distinguishing GULLEDGE (US 5,490,204 A) from the applicant's claim 1. Further, no additional prior art has been discovered that renders obvious or anticipates the entirety of the subject matter contained in claim 1. As such, the applicant's invention of claim 1, when considered in its entirety, comprises a unique combination of elements that is neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

KNIPPELMEIR (US 5,425,076 A) discloses a cellular communications test system.

Art Unit: 2682

TAYLOE et al (US 5,023,900 A) discloses a cellular radiotelephone diagnostic system.

GOURDIN et al (US 5,913,162 A) discloses cell test in a cellular telecommunication network.
